- Additional space is available at the end of the book if you need extra space to complete an answer

#### Instructions

- Write your **student number** in the space provided above on this page.
- All written responses must be in English.

**Students are NOT permitted to bring mobile phones and/or any other unauthorised electronic devices into the examination room.**

**Question 3 (9 marks)****Bourke MAYI Festival**

The Aboriginal Health & Medical Research Council of NSW (AH&MRC) approached the Bourke Aboriginal Corporation Health Service (BACHS) to work in partnership on delivering a community event that promoted the importance of annual Aboriginal Health checks. This would be the first community event since the COVID-19 outbreak, being a day of remembrance and healing for community.

The AH&MRC sponsored the event and were invited to set up a stall to promote the Your Health, Your Future (YHYF) program. The Your Health Your Future program seeks to enhance health literacy, increased awareness and knowledge of annual health checks, and provide further engagement through health promotional days at a community level in collaboration with member services. The messaging and engagement with Aboriginal Communities by the AH&MRC serves to be culturally safe, educational, and effortlessly drawn off the effective mode of health promotion through modelling on lived experience and understanding the structural theories of Aboriginal perspectives.

The AH&MRC engaged community members at the MAYI festival through the promotion of merchandise, inclusive of shirts, lunch boxes, backpacks, yoga mats, sportswear, football's, and umbrellas and fun activities for kids and adults that depicted aspects of good health. Activities involved in getting the merchandise consisted of completing a video promoting what good health is, how community take care of their health or simply saying 'Your Health, Your Future'. Community was also encouraged to utilize their local Aboriginal Medical Service (AMS) if they were interested in receiving more merchandise, and education was subtly provided about the annual Aboriginal Health Checks.
